

About pepper motion GmbH:

pepper – electrifying transportation!

pepper electrifies - Innovative modular drive solutions for used and new commercial vehicles (buses, trucks, special vehicles). As a system supplier and strategic partner in development for manufacturers, retrofitters and special vehicle builders, the company offers key technology for the electrification of trucks, buses and special vehicles for the sustainable mobility transformation.

Both existing fleets and new commercial vehicle series can be electrified quickly, cost-effectively and flexibly with the pepper kits and thus make an active contribution to reducing emissions in traffic and implementing the Clean Vehicles Directive.

pepper is certified to ISO 9001 and guarantees operational safety in accordance with international automotive industry standards such as functional safety ISO 26262.

pepper motion GmbH employs around 100 people and is headquartered in Denkendorf/Bavaria, with offices in Garching near Munich and Paderborn. The subsidiary pepper motion Austria GmbH, based in Vienna, is the pepper Group's software development center. pepper is represented by sales partners in France, Italy, and Poland.
